Caracol aka Carol Facal is currently better known as one half of the successful Canadian world-pop-duo "DobaCaracol":

- 425 concerts worldwide since 2006, among them renowned international festivals such as Live8 or Sziget and German festivals such as Zeltival Karlsruhe or Bardentreffen Nuremberg.
- Successful large-scale German Tour (14 concerts in 15 days) in Autumn 2007
- More than 100.000 sold copies of their debut "SOLEY" worldwide
- Great feedback by German media (album 8 weeks Top 5 of the WDR2 Charts)

Now, the sympathetic singer is going solo and will come to Europe to promote her new album "**L'arbre aux parfume**". One and a half years of songwriting experience make the sound of Caracol, also responsible for DobraCaracol's French-Pop and Chanson influences, noticeably more mature and more personal, without losing any of its easiness.

"The tracks are so catchy, you feel tempted to sing along to the chorus right after the first listen."

Born out of necessity due to the split-up of DobaCaracol Carol Facal did just the right thing and relied on her voice and musical intuition when recording her album "**L'arbe aux Parfums**". The media celebrated her musical development and already compare her to current stars such as **Feist** or **Amy Winehouse**.

From **Summer 2011** on she will present her very personal programme throughout Europe and is sure not only to enthuse DobaCaracol fans.

„The end of DobaCaracol marks the beginning of a promising solo-career for Carol Facal“
